# ROLLERSKI

## ● ROLLERSKI AUTOMATIC RETRACTABLE SKI WHEEL SYSTEM

**ROLLERSKI™** offers the sled rider an auto-retractable ski wheel system that is thoroughly engineered and quality fabricated. Our «rider approved» **ROLLERSKI™** wheel kits are designed to fit most major models of sleds. **ROLLERSKI™** enables safe riding and better steering on paved roads and reduces runner wear. **ROLLERSKI™** provides surface protection and easy movement of your sled while moving on driveways, garage floors and trailer beds.

## feel free to ride... and roll!

Less than 30 minutes for the entire installation

Designed for extreme winter weather conditions

Highly resistant to impacts

**ROLLERSKI™** is the only auto-retractable ski wheel system for today's sleds. Aside from **ROLLERSKI's** fully automatic re-tractable wheel system which has frost free, rust free features, **ROLLERSKI™** is the only sled wheel system that is always perfectly aligned since it is designed to be incorporated into the steering arm vertical axle assembly allowing for perfect steering integration without distorting the ski. **ROLLERSKI™** provides an 'inner skate' position for better handling and less side torsion on the ski.

**[Efficient design]** Easy to engage without any great physical effort.

**[Scars on the floor]** Safest way to protect driveways, floors trailer beds.

**[Security]** Offers easier and precise steering manners while driving on paved roads, bridges and ferries.

**[Set your mind on the ride]** Dramatically reduces wear to runners and anti-darting plates.

**[Automatic]** Wheels automatically disengage on powder surfaces.
