## ● TRAIL BLIZZER™

UNIVERSAL FIT SNOW SCRATCHERS

The all new patent pending **TRAIL BLIZZER™** is the next generation of ice scratchers. In today's world of performance sleds, ice scratchers are even more in demand to lubricate the hyfax and deliver ice spray up into the heat exchangers of liquid cooled machines. Our unique scratcher design, offers replaceable carbide wear tips and reverse motion will not damage or displace the **TRAIL BLIZZER™**.

# Cool runnin'!

**[ Reverse Compatible ]** TRAIL BLIZZER™ is made of a durable and flexible industrial grade metal cable that can withstand harsh trail conditions. Trail Blizzer is designed to be reverse gear compatible, eliminating the possibility of scratcher damage and misalignment when using reverse motion on the trail. The TRAIL BLIZZER™ is designed and fabricated to accommodate assorted terrain without damage. Regular scratchers contact wear points wear in time, whereby replacement of the whole scratcher is the only option. With TRAIL BLIZZER™ you have available, easy to change replaceable wear points. TRAIL BLIZZER™ is designed to bend and flex 360 to allow for all range of motion.

**[ Indestructible Design ]** The flexible metal cable contributes to a durable and robust design.

**[ Replaceable Wear Points ]** When traditional scratchers wear, your only option is to replace the entire scratcher. TRAIL BLIZZER™ reduces this cost by offering easily replaceable wear points for a fraction of the cost of new scratchers.

**[ Universal Compatibility ]** Whether you have a new sled or an older model, TRAIL BLIZZER's universal fit allows for positioning on either machine. Included in each set of TRAIL BLIZZER™ are a full step by step installation instructions. TRAIL BLIZZER™ is engineered for a quick and easy installation.

**Less than 30 minutes for the entire installation**

**Lubricates the slides (hyfax). Cools the heat exchanger**

**Universal! Fit for all models and brands**

**Technical informations :**

Quantity per box :	2	
Length:	12"	30 cm
Cable diam. :	1/2"	1,25 cm
Carbide wear points :	available	
Steel waer points :	available	
Weight :	1,1 lbs	0,5 kg

Dimensions and specs may change without any prior notice.

Rail attachment

Position control

Storage position

**The Trail Blizzer fits on all models of the following manufacturers**

ARCTIC CAT  
POLARIS

BRP  
YAMAHA

**This product includes an Installation Guide and a step-by-step DIY instructions.**

**This product is covered by a limited 3-month warranty.**
